Under the provisions of state law, this report is a public document. A copy of this report has been submitted to the Governor, to the Attorney General, and to other public officials as required by state law. A copy of this report has been made available for public inspection at the Baton Rouge and New Orleans offices of the Legislative Auditor.

This document is produced by the Legislative Auditor, State of Louisiana, Post Office Box 94397, Baton Rouge, Louisiana 70804-9397 in accordance with Louisiana Revised Statute 24:513. Five copies of this public document were produced at an approximate cost of \$16.00. This material was produced in accordance with the standards for state agencies established pursuant to R.S. 43:31. This report is available on the Legislative Auditor's Web site at www.lla.state.la.us. When contacting the office, you may refer to Agency ID No. 3402 or Report ID No. 07100694 for additional information.

In compliance with the Americans With Disabilities Act, if you need special assistance relative to this document, or any documents of the Legislative Auditor, please contact Wayne "Skip" Irwin, Director of Administration, at 225/339-3800.

Independent Auditor's Report
on the Financial Statements

DRINKING WATER REVOLVING LOAN FUND
DEPARTMENT OF HEALTH AND HOSPITALS,
OFFICE OF PUBLIC HEALTH
STATE OF LOUISIANA
New Orleans, Louisiana

We have audited the accompanying financial statements of the Louisiana Department of Health and Hospitals, Office of Public Health - Drinking Water Revolving Loan Fund, as of and for the year ended June 30, 2006, as listed in the table of contents. These financial statements are the responsibility of management of the Drinking Water Revolving Loan Fund program. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in note 1, the accompanying financial statements present only the Drinking Water Revolving Loan Fund, and do not purport to, and do not, present fairly the financial position of the State of Louisiana, the Louisiana Department of Health and Hospitals, or the Office of Public Health and its changes in financial position, including cash flows, in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Louisiana Department of Health and Hospitals, Office of Public Health - Drinking Water Revolving Loan Fund as of June 30, 2006, and its changes in financial position, including cash flows, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

DRINKING WATER REVOLVING LOAN FUND

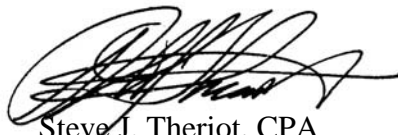

During August and September of 2005, the State of Louisiana suffered considerable damage from two major hurricanes, Katrina and Rita, resulting in the President of the United States declaring Louisiana a major disaster area. Because of the severity of these two separate events and the resulting losses sustained, it is unknown exactly what economic impact recovery will have on state and local governmental operations in Louisiana. While there was no significant impact on the Drinking Water Revolving Loan Fund, the long-term effects of these events directly on the fund cannot be determined at this time.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 11, 2006, on our consideration of the Drinking Water Revolving Loan Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in assessing the results of our audit.

In addition, we have issued a report dated December 11, 2006, on our consideration of the Drinking Water Revolving Loan Fund's internal control over compliance with certain laws and regulations, and our tests of its compliance with those laws and regulations, in accordance with the *Environmental Protection Agency Audit Guide for Clean Water and Drinking Water State Revolving Fund Programs*.

Our audit was conducted for the purpose of forming an opinion on the Louisiana Department of Health and Hospitals, Office of Public Health - Drinking Water Revolving Loan Fund's financial statements. The accompanying supplemental information listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the financial statements of the Drinking Water Revolving Loan Fund. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Respectfully submitted,

Steve J. Theriot, CPA
Legislative Auditor

INTRODUCTION

The Louisiana Department of Health and Hospitals, Office of Public Health (DHH-OPH) is a department of the State of Louisiana. DHH-OPH was created in accordance with Louisiana Revised Statutes (R.S.) 36:251(c) and 258(b) as a part of the executive branch of government. DHH-OPH is charged with protection of the public health of residents of the State of Louisiana.

The Drinking Water Revolving Loan Fund (DWRLF) program was established pursuant to the federal Safe Drinking Water Act Amendments of 1996 (SDWA). The DWRLF program provides financial assistance to both publicly and privately owned community water systems and nonprofit noncommunity water systems for projects eligible under the SDWA. The DWRLF program presently operates under R.S. 40:2821-2826. These statutes establish a DWRLF program capitalized by federal grants (Capitalization Grants for Drinking Water State Revolving Fund, CFDA 66.468), by state funds when required or available, and by any other funds generated by the operation of the program. The DWRLF program provides assistance through loans for infrastructure projects and other assistance in the form of set-aside activities for program administration, technical assistance, state program management, local assistance, and other state programs. All efforts are directed toward improving drinking water quality by assisting systems in providing drinking water that meets established standards and that achieves the goals of the SDWA.

The DHH-OPH is responsible for the operations and administration of the DWRLF program. DHH-OPH is authorized to apply for and accept capitalization grants from the United States Environmental Protection Agency, establish assistance priorities, perform oversight and other related activities, and provide financial administration of the set-aside and loan accounts for the DWRLF program. The Louisiana Department of Environmental Quality, through a memorandum of understanding, provides DHH-OPH with the environmental reviews of the projects for the DWRLF program.

The DWRLF does not have any full-time employees. However, time spent on the DWRLF program by employees of DHH-OPH is captured and the DWRLF subsequently reimburses DHH-OPH for salaries and benefits as well as other operating expenses of the fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying financial statements have been prepared on the full accrual basis in accordance with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting principles and reporting standards. These principles are found in the *Codification of Governmental Accounting and Financial Reporting Standards*, published by the GASB. Management of the fund applies all GASB pronouncements as well as Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB

pronouncements. Management has elected to follow GASB statements issued after November 30, 1989, rather than the FASB statements.

B. REPORTING ENTITY

GASB Codification Section 2100 establishes criteria for determining the governmental reporting entity and has defined the governmental reporting entity to be the State of Louisiana. The accompanying financial statements represent activity of a fund of the State of Louisiana that is administered by DHH-OPH, a department within state government. The DWRLF is part of the primary government of the State of Louisiana.

Annually, the State of Louisiana issues a comprehensive annual financial report, which includes the activity contained in the accompanying financial statements. Those basic financial statements are audited by the Louisiana Legislative Auditor.

C. FUND ACCOUNTING

For the purposes of this report, the DWRLF uses a single proprietary (enterprise) fund. Proprietary funds are used to account for operations that are (a) financed and operated in a manner similar to private business enterprises where the intent of the governing body is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

D. BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The transactions of the DWRLF are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operations are included on the Statement of Net Assets.

The DWRLF uses the accrual basis of accounting. Revenues are recognized in the accounting period when they are earned and expenses are recognized when the related liability is incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and/or producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the DWRLF are federal funds and interest earnings. Operating expenses include the set-aside expenses.

E. BUDGETS AND BUDGETARY ACCOUNTING

The DWRLF is budgeted annually by the Louisiana Legislature. The set-aside activities are budgeted as part of the operations of DHH-OPH in the General Appropriations Act. The Ancillary Appropriations Act (Act 46 of the 2005 Regular Session as amended) authorized expenditures of \$34,000,000 for the loan program for fiscal year 2005-2006 and allows the fund to retain resources to fund future loans and eligible program activities. Because the fund is an enterprise fund, a budgetary comparison is neither required nor presented in the financial statements.

F. LOANS RECEIVABLE

The DWRLF is operated as a direct loan program. The program provides loans and other financial assistance to public water systems for the purpose of planning, constructing, and rehabilitating public water systems.

The program lends federal and state monies directly to public water systems. The federal share is 80% and requires a state matching share of 20%. Recycling of principal and interest repayments from borrowing water systems allows the program to operate in perpetuity thereby benefiting other water systems wishing to borrow in the future. Borrowers pay principal and interest directly to the loan program, and all monies are deposited directly to the program. Principal repayments can only be used to make additional loans to water systems. Interest earnings on investments and loans can also be used to make additional loans.

The loans made by the DWRLF must be made at or below market interest rate with a repayment period not exceeding 20 years plus an interim construction-financing period. The current loan rate is 3.45% for new water construction/water system rehabilitation projects. In addition, water systems are charged an administrative fee of 0.5% on outstanding loan balances payable semiannually.

As evidence of its obligations to pay principal and interest on the loans, each borrower must establish a dedicated source of revenue (or in the case of a privately owned system, demonstrate that there is adequate security) for repayment of the loan [42 USC 300j-12(f)(1)(C)]. For substantially all of these loans, the loan recipient issues bonds that are purchased by DHH to secure the repayment of the principal loaned. Principal and interest on the bonds are paid to the DWRLF and upon repayment of the loan, the bonds are returned to the loan recipient. Minimum required coverage ratios are established depending on the nature of the bonded indebtedness issued by the loan recipient as follows:

For limited tax bonds, the principal and interest due in any year on the amount borrowed shall not exceed 75% of the revenues estimated to be received from the levy of the pledged millage in the year in which the indebtedness is issued (R.S. 39:742.2).

For sales tax bonds, the total amount of principal and interest falling due in any year, together with principal and interest falling due in such year on any previously issued sales tax bonds, shall never exceed 75% of the amount of sales tax revenues estimated by the governing authority of the issue to be received by it in the calendar year in which the bonds are issued (R.S. 39:698.4).

For revenue bonds, the requirements for coverage are established contractually in the loan documents (R.S. 39:1019). Expected coverage ratios might range from 110% to 130% or more. The DWRLF goal for collections of the dedicated revenues for repayment of the loan secured by revenue bonds is 125%; however, many factors can create deviation from this goal. It is customary to use the same minimum required coverage ratio as was previously established for outstanding debt of the loan recipient.

For general obligation bonds, the requirements for coverage are statutorily set. The governing authority of the issuer is required to impose and collect annually, in excess of all other taxes, a tax on all property subject to taxation by the issuer sufficient in amount to pay the interest and the principal falling due each year, or such amount as may be required for any sinking fund necessary to retire said bonds at maturity (R.S. 39:569). Typically, the bond millage is adjusted each year so as to generate enough revenues to pay debt service in the ensuing calendar year. No coverage requirements or debt service reserves exist, because the tax can be adjusted each year *without any limitation whatsoever* to collect the appropriate amount each year.

In the case of sales tax bonds and revenue bonds, each loan recipient is also required to set up a debt service reserve fund equal to 10% of the loan amount or one year's principal and interest for the purpose of paying principal and interest should the dedicated revenues be insufficient for that purpose. The requirement to maintain a debt service reserve fund is not statutorily required but is usual and customary for these kinds of indebtedness.

Because of the reserve requirements and the absence of any delinquent loans, there is no provision for uncollectible amounts.

G. NET ASSETS

Net assets comprise the various net earnings from operations, nonoperating revenues, and contributions of capital. Net assets generally are classified in the following components:

Invested in capital assets, net of related debt consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net assets consist of net assets subject to external constraints placed on net asset use by creditors, grantors, contributors or law or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of all other net assets that are not included in the other categories previously mentioned.

H. CAPITAL CONTRIBUTIONS

The funds drawn for loans from the EPA capitalization grants authorized by the Safe Drinking Water Act Amendments of 1996 are recorded as capital contributions.

I. CAPITAL ASSETS

Equipment is valued at historical cost and includes all items valued at or above \$5,000. Depreciation of all exhaustible capital assets of the fund is charged as an expense against operations. Depreciation for financial reporting purposes is computed by the straight-line method over the estimated useful life of the asset, generally 5 to 10 years.

J. COMPENSATED ABSENCES

The Department of Health and Hospitals, Office of Public Health provides employees to work on the DWRLF program. Compensated absences, pension benefits, and postretirement benefits are provided and recorded by the department and allocated to the fund based on time worked. These allocated expenses are included in the fund financial statements; however, no liability for compensated absences and no disclosures for compensated absences, pension benefits, or postretirement benefits are included in the fund financial statements, as the ultimate liability is with the department, rather than the fund.

K. ESTIMATES

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. CASH

As reflected on Statement A, the DWRLF has cash totaling \$10,092,208 at June 30, 2006. All monies of the fund are deposited with the State Treasurer's Office. Cash balances are held and controlled by the state treasurer and are secured from risk by the state treasurer through separate custodial agreements, and the risk disclosures required by accounting principles generally accepted in the United States are included within the State of Louisiana's financial statements.

DRINKING WATER REVOLVING LOAN FUND

3. DUE FROM OTHERS

As shown on Statement A, the DWRLF has a total due from others of \$3,201,743. This total is comprised of the following:

Due from the federal government - set-aside programs	\$215,135
Due from water systems	2,947,293
Due from state treasury - interest	<u>39,315</u>
Total due from others	<u><u>\$3,201,743</u></u>

Of the \$2,947,293 due from water systems, \$2,446,300 is the current portion of the principal due, \$437,576 is loan interest, and \$63,417 is administrative fees on loans.

4. LOANS RECEIVABLE

The DWRLF makes loans to community water systems both privately and publicly owned and nonprofit noncommunity water systems for projects that meet the eligibility requirements of the program. Loans are financed by capitalization grants, state match, and revolving funds. The effective interest rate on loans is 3.45% and must be repaid over 20 years starting two years after the closing date of the loan or one year after the project is completed, whichever occurs first. As of June 30, 2006, seven projects were complete and the remaining loan commitment balance (loans authorized less loans disbursed) totaled \$11,694,814.

Loans mature at various intervals through July 1, 2026. The scheduled principal payments on loans maturing in subsequent years are as follows:

Year ending June 30:	
2007	\$2,446,300
2008	2,967,800
2009	3,069,722
2010	3,138,120
2011	3,151,900
2012-2016	16,292,358
2017-2021	18,104,560
2022-2026	<u>5,289,236</u>
Total loans receivable	<u><u>\$54,459,996</u></u>
Long-term receivable portion	<u><u>\$52,013,696</u></u>

NOTES TO THE FINANCIAL STATEMENTS

As of June 30, 2006, the DWRLF had made loans to 17 water systems as follows:

<u>Water System</u>	<u>Authorized Loan Amount</u>	<u>Loans Outstanding</u>
Town of Baldwin	\$1,249,627	\$1,056,999
Town of Church Point	2,500,000	2,015,000
Colyell Community Water Association	948,600	845,900
Culbertson Water System	598,226	505,001
Ward Two Water District of Livingston Parish	15,000,000	10,731,245
Waterworks District No. 1 of DeSoto Parish	2,350,000	2,072,364
Town of Many	3,600,000	1,823,034
City of Oakdale	1,492,412	1,337,412
Village of Quitman	480,000	410,411
City of Shreveport	19,540,000	16,702,420
West Winnsboro Water System	648,093	546,000
City of Natchitoches	3,500,000	2,869,022
Westlake	3,750,000	3,499,906
Ascension	6,000,000	5,188,541
Lafayette	2,800,000	1,458,791
New Iberia	6,000,000	3,372,684
Monroe	3,000,000	225,266
Total	<u>\$73,456,958</u>	<u>\$54,659,996</u>

The DWRLF has been awarded eight federal grants from the EPA. These grants are available through the EPA's Automated Clearing House Payment System (ACH). These grants are authorized by the Safe Drinking Water Act Amendments of 1996 and require matching funds from the state. The grants are used to fund infrastructure projects of \$95,162,100 to the state of which \$60,230,977 has been drawn, \$50,039,318 for loans, and \$10,191,659 for set-aside activities. The state has provided matching funds of \$12,619,282 through the year ended June 30, 2006. The following summarizes the grants awarded, amounts drawn of each grant as of the balance sheet date, and balances available for future loans and set-aside expenses:

DRINKING WATER REVOLVING LOAN FUND

<u>Grant Source</u>	<u>Grant Amount</u>	<u>Cumulative Dollar Draws Set-Asides</u>	<u>Cumulative Dollar Draws Loans</u>	<u>Total Cumulative Dollars Drawn as of June 30, 2006</u>	<u>Remaining Grant Dollars Available as of June 30, 2006</u>
FS996968-01-2	\$20,420,300	\$4,307,056	\$16,113,244	\$20,420,300	
FS996968-02-2	9,949,200	1,553,988	8,395,212	9,949,200	
FS996968-03-0	10,427,700	1,642,927	8,784,773	10,427,700	
FS996968-04-0	10,837,400	1,070,826	9,766,574	10,837,400	
FS996968-05-0	18,934,800		6,979,515	6,979,515	\$11,955,285
FS996968-06-0	8,004,100	1,273,336		1,273,336	6,730,764
FS996968-07-0	8,303,100	178,241		178,241	8,124,859
FS996968-08-0	8,285,500	165,285		165,285	8,120,215
	<u>\$95,162,100</u>	<u>\$10,191,659</u>	<u>\$50,039,318</u>	<u>\$60,230,977</u>	<u>\$34,931,123</u>

The state has provided its required matching share of federal grant awards through General Fund appropriations and the sale of revenue bonds. Cash contributions from General Fund appropriations and sales of revenue bonds have totaled \$12,619,282. Matching contributions are as follows:

	<u>Cumulative State Match as of June 30, 2005</u>	<u>2006 Contribution</u>	<u>Cumulative State Match as of June 30, 2006</u>
State cash contribution	<u>\$11,677,271</u>	<u>\$942,011</u>	<u>\$12,619,282</u>

5. SET-ASIDE EXPENSES

A portion of the federal grant amounts awarded by the EPA can be specified to fund set-aside activities as follows:

- Up to 4% to provide administrative and technical assistance
- Up to 2% to provide technical assistance to small water systems
- Up to 10% to provide state program management
- Up to 15% to provide assistance in the development and implementation of local drinking water protection initiatives and other local assistance and state programs

NOTES TO THE FINANCIAL STATEMENTS

Set-aside expenses are summarized as follows:

	<u>2006</u>	<u>Prior Years</u>	<u>Total</u>
Administration	\$273,011	\$1,898,001	\$2,171,012
Small system technical assistance	182,565	975,949	1,158,514
State programs	760,181	3,939,545	4,699,726
Local assistance and state programs	<u>6,913</u>	<u>2,234,007</u>	<u>2,240,920</u>
Total	<u>\$1,222,670</u>	<u>\$9,047,502</u>	<u>\$10,270,172</u>

6. CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets for the fiscal year ended June 30, 2006, follows:

	<u>Balance July 1, 2005</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance June 30, 2006</u>
Equipment	\$199,727		(\$24,105)	\$175,622
Less accumulated depreciation	<u>(199,727)</u>		<u>24,105</u>	<u>(175,622)</u>
	<u>NONE</u>	<u>NONE</u>	<u>NONE</u>	<u>NONE</u>

The capitalization policy of the Louisiana Division of Administration, Office of Statewide Reporting and Accounting Policy, is to include only those assets with an original acquisition cost of \$5,000 or more for depreciable equipment. GASB Statement No. 34 requires the recognition of depreciation on capital assets, resulting in the recognition of accumulated depreciation for current and prior years.

7. ACCOUNTS PAYABLE AND ACCRUALS

The following is a summary of payables and accrued expenses at June 30, 2006:

Vendor payables	\$180,458
Payroll accrual	<u>34,677</u>
Total payables	<u>\$215,135</u>

DRINKING WATER REVOLVING LOAN FUND

8. LONG-TERM LIABILITIES

The following is a summary of bonds and other long-term debt transactions of the fund for the year ended June 30, 2006:

	Balance July 1, 2005	Additions	Reductions	Balance June 30, 2006
Bonds payable	\$500,000	\$1,000,000	(\$1,500,000)	NONE

The fund is allowed by CFR 35.3550(g)(3) to issue general obligation or revenue bonds to derive the state match. Furthermore, the secretary of DHH, through a Resolution by Executive Order pursuant to R.S. 30:2011 *et seq.*, was authorized, for state matching purposes, to borrow through the issuance of the department's note to the Louisiana Public Facilities Authority (LPFA), a conduit issuer of serial bonds for the department and the state.

The serial bond issue was called Louisiana Public Facilities Authority Revenue Bonds (Drinking Water Revolving Loan Fund Match Project) Series 2002 and was issued during the fiscal year ending June 30, 2003. This indebtedness was secured solely from the pledge of a portion of the revenues received by the department from loans made by the program (interest earned on loans receivable and interest earned on cash in state treasury). The LPFA is a public trust and public corporation organized and existing for the benefit of the State of Louisiana. The loan agreement between LPFA and DHH was for a total of \$8,000,000 of which \$1,000,000 was issued in fiscal year 2003; \$2,500,000 was issued during fiscal year 2004; \$2,000,000 was issued during fiscal year 2005; and \$1,000,000 was issued during fiscal year 2006. The \$8,000,000 Indenture of Trust was issued between the LPFA and Hancock Bank of Louisiana. As of June 30, 2006, a total of \$6,272,177 was generated for matching fund purposes by the issuance of these serial bonds. Bond issue costs of \$227,823 were absorbed by bond proceeds and are, therefore, not required to be charged against the 4% administrative costs allowance in accordance with Drinking Water State Revolving Fund program guidelines. The \$1,500,000 of bond issues was repaid before the end of the fiscal year; therefore, no liability exists at June 30, 2006.

Additional issuance from this series may be issued as needed for future state matching purposes.

9. LITIGATION AND CLAIMS

Losses arising from judgments, claims, and similar contingencies are paid through the state's self-insurance fund operated by the Office of Risk Management, the agency responsible for the state's risk management program, or by legislative appropriation. The DWRLF has no lawsuits outstanding at June 30, 2006.

SUPPLEMENTAL INFORMATION SCHEDULES
As of and for the Year Ended June 30, 2006

The Drinking Water Revolving Loan Fund is considered one fund, which is comprised of a loan element and an administrative and state match element. The U.S. Environmental Protection Agency requested information on each of these elements. The supplementary information schedules 1 through 3 provide the details requested by the U.S. Environmental Protection Agency.

Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of the
Financial Statements Performed in Accordance
With Government Auditing Standards

DRINKING WATER REVOLVING LOAN FUND
DEPARTMENT OF HEALTH AND HOSPITALS,
OFFICE OF PUBLIC HEALTH
STATE OF LOUISIANA
New Orleans, Louisiana

We have audited the financial statements of the Louisiana Department of Health and Hospitals, Office of Public Health - Drinking Water State Revolving Loan Fund, as of and for the year ended June 30, 2006, and have issued our report thereon dated December 11, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Louisiana Department of Health and Hospitals, Office of Public Health - Drinking Water Revolving Loan Fund's internal control over financial reporting to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Louisiana Department of Health and Hospitals, Office of Public Health - Drinking Water State Revolving Loan Fund's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws and regulations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management of the Department of Health and Hospitals, Office of Public Health and the federal awarding agency and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Steve J. Theriot", is written over a horizontal line.

Report on Compliance With Requirements Applicable to the Capitalization
Grants for Drinking Water State Revolving Funds Program and on
Internal Control Over Compliance in Accordance With the
*Environmental Protection Agency Audit Guide for
Clean Water and Drinking Water State Revolving Fund Programs*

**DRINKING WATER REVOLVING LOAN FUND
DEPARTMENT OF HEALTH AND HOSPITALS,
OFFICE OF PUBLIC HEALTH
STATE OF LOUISIANA
New Orleans, Louisiana**

Compliance

We have audited the compliance of the Louisiana Department of Health and Hospitals, Office of Public Health - Drinking Water State Revolving Loan Fund with the types of compliance requirements that are applicable to the Capitalization Grants for the Drinking Water State Revolving Funds Program (CFDA 66.468) for the year ended June 30, 2006, as specified by the *Environmental Protection Agency Audit Guide for Clean Water and Drinking Water State Revolving Fund Programs*. Compliance with the requirements of laws, regulations, contracts, and grants applicable to this federal program is the responsibility of management of the Louisiana Department of Health and Hospitals, Office of Public Health. Our responsibility is to express an opinion on the Drinking Water Revolving Loan Fund's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Environmental Protection Agency Audit Guide for Clean Water and Drinking Water State Revolving Fund Programs*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the program occurred. An audit includes examining, on a test basis, evidence about the Drinking Water Revolving Loan Fund's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Drinking Water Revolving Loan Fund's compliance with those requirements.

DRINKING WATER REVOLVING LOAN FUND

In our opinion, the Louisiana Department of Health and Hospitals, Office of Public Health - Drinking Water Revolving Loan Fund complied, in all material respects, with the requirements referred to previously that are applicable to its Capitalization Grants for Drinking Water State Revolving Funds Program for the year ended June 30, 2006.

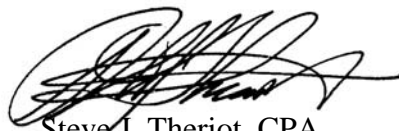

Internal Control Over Compliance

Management of the Department of Health and Hospitals, Office of Public Health - Drinking Water Revolving Loan Fund is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to this federal program. In planning and performing our audit, we considered the Department of Health and Hospitals, Office of Public Health - Drinking Water Revolving Loan Fund's internal control over compliance with requirements that could have a direct and material effect on its Capitalization Grants for Drinking Water State Revolving Funds Program (CFDA 66.468), in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with the *Environmental Protection Agency Audit Guide for Clean Water and Drinking Water State Revolving Fund Programs*.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to this federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal controls over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of management of the Department of Health and Hospitals, Office of Public Health and the federal awarding agency and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Respectfully submitted,

Steve J. Theriot, CPA
Legislative Auditor
